

Count to 10, then count your child.

Funding for early childhood education helps set your child and family up for lifelong success.

That's why answering the questions on the 2020 Census and counting every child in your home is so important. Your answers help your local community receive money for the next 10 years for schools, child care, and more.

Any personal information provided to the 2020 Census is kept safe and there are no citizenship questions asked.

Postcard reminders will arrive in homes in mid-March.

By April 1, 2020, every home will be invited to answer the 2020 Census questions. You will have three ways to do this:

1. Online (you can use your mobile device).
2. By phone.
3. By mail.

The Census Bureau does not share any personal information.
